Saban: The Making Of A Coach

Synopsis

An instant New York Times bestsellerâthe âinsider, detailed, and absorbingâ (Sports Illustrated) biography of Nick Saban, the polarizing University of Alabama football coach who not only transformed the college game, but might also be the best ever at winning. As the head coach of the University of Alabamaâs football team, Nick Saban is perhaps the most influentialâand polarizingâman in the sport. His program-building vision has delivered packed stadiums, rabid fans, legions of detractors, countless NFL draft picks, and a total of four national championships, including three in the last five years. He is the only coach in the college footballâs modern era (since 1936) to win national championships at two different schools. Monte Burkeâs Sabanâthe first major biography of the man who has come to epitomize the gameâpresents this towering figure with a never-before-seen human depth. Though a great deal is known about Nick Saban the coach, not much is known about Nick Saban the man. Little is written about his early climb through the coaching ranks as an assistant in college and in the NFL, or his head-coaching stints at Michigan State and Louisiana State and his struggles as a pro coach with the Miami Dolphins. Through unprecedented interviews with more than 250 friends, coworkers, rivals, former players, and others, Burke reveals the defining moments of the coachâs life, including the beginning of his recruiting career at age ten; his dramatic departures from three different high-profile football teams; and the building of championship programs at Louisiana State and Alabama. In Saban, âBurke has written a winning, definitive portrait of a fascinating characterâ. A no-holds-barred glimpse into the quest for perfectionâ (Publishers Weekly).

I just finished reading "SABAN: The Making of a Coach," the unauthorized biography of Nick Saban, written by Monte Burke. Judging from Coach Saban's general disapproval of unauthorized biographies*, I was afraid that this book might be an overtly biased and unfairly negative caricature of the Alabama head football coach. But pleasantly, I found the book to be a fair, thorough, and highly readable examination of arguably the greatest college football coach in the game today. Those who lack objectivity – be they Saban detractors or Saban worshippers – will find plenty of ammunition within these pages to support their blindly subjective opinions of the man. But the objective reader will discover that Nick Saban is a complex human being whose success is fueled by a variety of sometimes seemingly paradoxical factors. On the one hand Coach Saban is impatient, demanding, intolerant, and impersonal. On the other hand he is compassionate, emotional, forgiving, and kind. He expects the same standards of preparation, commitment, work ethic, and attention to detail from his staff and players that he demands of himself. Thus he finds it hard to understand why others don't work as hard, try as hard, or care as much as he does. And understandably, it's not easy to work with or play for a man with such high standards. However, Monte Burke also shows us a side of Coach Saban that would surprise most people. This book demonstrates that Saban is not some robotic mercenary who is simply concerned about wins and losses and financial reward.
