Thats What The Old Ones Say: Pre-Colonial Revelations Of God To Native America

Synopsis

"That's What the Old Ones Say" Pre-Colonial Revelations of God to Native America A revealing book of intriguing stories told by elders from different First Nations Tribes about The Creator, His Son, Native End-Times Prophecies, Revelations & more. Many of these traditional stories have been told for generations at Ceremonial Grounds, Stomp Arbors, Powwow Grounds, and private family gatherings tucked away deep on tribal lands. I was honored and humbled to be able to sit and learn these old stories from elders hailing from many First Nations tribes. Comanche, Dineh, Apache, Anishinabe, Aztec, Cherokee, Creek, Cheyenne, Lakota, and Mohawk are a few of the tribes whose elders shared their beautiful stories with me. I listened eagerly to these accounts that were passed down from generation to generation while understanding filled my spirit and I was asked to pass these stories along to the next generation. These are stories that were told before missionary contact and I realized with each story that I listened to I had heard them beforeâ not from my tribe but from another ancient tribe who has left an impacting legacy on the earth called The Bible. The Creator planted the seed in my heart to write this book as a way to help build the bridge of reconciliation between the nations. You might laugh, cry, sing for joy or wail from the deepest parts of your soul. Betrayal, love, reconciliation, unity, sacrifice, joy, peace, history, archaeology, science, the perseverance of the human spirit and the longing for Creator to heal our land and broken hearts. A longing for our spirit to be uplifted from the only One who can give us Hope in the face of utter defeat and despair. I was humbled being entrusted with hearing these stories and was given permission to retell them so they can be shared with the world. Seneco Kakona (Many Blessings). - Chief Joseph RiverWind

That's What the Old Ones Say brought much laughter and tears. It was intense reading as we couldn't wait to hear what the next page would say. I even read out loud to my 8 year old son at bed time. Beautiful stories, ancient stories, woven stories, poetic stories. We were fascinated at how many of these stories coincide with Scripture. We love how the Creator and Messiah are shared and revealed. Just plain ole fascinating. I gave this book also to my dad and every time I see him, he tells me a new story from the book. I am so thankful, where I could not reach him in trying to share with him, Joseph, through his writing has reached my father and unlocked some Biblical truths and opened all of our eyes to a whole new perspective and world that we have great admiration and respect for, The First Nations people. We plan on buying more of That's What the Old Ones Say and giving them away. I highly encourage you to purchase this book if you are considering it and I know it will be one you reread over and over again.

This was an eye opening book! By that I mean it opened my eyes to see more of the Creators plan of redemption. My family settled in Jamaica and Trinidad, the West Indies, after being in the Diaspora from Spain and I never gave much thought to the Indigenous tribes living in the Caribbean before Christopher Columbus was discovered. My perspective has opened up and I now realize how truly related we all are. Then having been awoken by the Ruach to my Hebrew understanding of Scripture, It's mind blowing how vast the connection spreads. We, YHWH's people, The Lost Tribe of Yis'rael, are like the dew that covers the earth.....we are every where. Thank you for hearing and obeying the leading of the Set-apart Spirit and writing this down for posterity. Shalom.

I bought this book after listening to an interview of Chief RiverWind by LA Marzulli. This is an excellent book. Well written and compelling. I found that I could only read a chapter at a time as I was forced to think, meditate, and pray about the information presented. It is a story of atrocity, betrayal, hate, and forgiveness. The connections of the Native American legends to the Biblical account are fascinating. I believe this book is a must read for not only Christians, but everybody.

Informative and insightful book about the history and heart of First Nations People. Grateful for the author's sharing of stories that many of us could never be privy to; unless expressly invited. (Very

interesting to know that America was known as 'Turtle Island' first!) Really hope that this is a first of many books. Thanks for sharing, Chief Riverwind!!

This is a must read, Chief Joseph Riverwind reveals the historical truth of 1st nations people and how it shall help us understand better our present world situations. He gives us great insights into understanding prophesy and what is unfolding before us on the world stage.

This is a great book! The information in here is very eye opening. Yahweh's love for the Native Americans has a supernatural history you will have to read to believe!

I just finished reading Chief Joseph's book "What the Old Ones Say." I can't recommend it enough. It's testimony to how the government has treated the First Nations people is riveting. I have always been horrified by it but broke down and cried reading it. There is also a lot of encouragement in repentance and bridge building. I was personally uplifted by his comments on Yahweh preparing us for things that are about to happen in our life and that nothing that happens is coincidence. I have always felt that in my heart. To hear another believer confirm that is just what I needed. I'm going thru another time like that in my life now. I highly recommend it and if you know anybody who is a First Nations person, or has a ministry for them, consider sending them one as a gift. I believe it would change their life!

This book is a great read for those interested in the truth. The narratives contained within come from those who have been ill treated, disrespected and long forgotten in American's dark past. Learn actual history most of which has never been taught in schools. May this book bring a new awareness to question what you thought you knew, and the courage to delve deeper into the unknowns this planet has to offer.
