The Burning Claw: Book 10, The Grey Wolves Series

Synopsis

Jacqueline's mind wandered as she hovered somewhere between life and death. Her body longed to let go, to sink into the peaceful abyss, to the place where she didn't have to worry about rabid, child-snatching vampires and the carnage they'd caused to so many innocent families. But something kept her here, tethered to this world, something she couldn't quite remember hovered just on the edge of her consciousness, something vital. It wasn't Fane, he would be with her on the other side, she knew that. If she died, he died too and he wouldn't have it any other way. She could feel Peri's presence in her body. The fae was fighting, expending every ounce of her energy to keep her and Fane alive and the strain was taking its toll on the fae. But why? Why was the fae fighting as if her own life depended upon Jacqueline's survival? Jacqueline was starting to remember someone else—someone that depended on her. A brand new life, precious and perfect—her son. Costin's best friend lay as if sleeping, clinging to life by a mere thread, held at the other end by the powerful fae. But the thread holding Costin to his own sanity was just as feeble. Sally, his world, his light, his brown-eyes, the only thing that keeps the darkness at bay, was gone. Simply vanished. Costin didn't know how or where, and it was tearing him up inside. The young boy, Titus, his adopted son, was the only thing that kept his wolf from taking over completely. Costin would be strong for the boy for as long as he could, but he wasn't sure how long he could keep the feral wolf at bay. Bethany, the brave young girl that had been rescued from the clutches of the vampire coven to which she'd served as food for the past seven years, was now sharing a room with her true mate, with absolutely no understanding of what that meant. Though the girl had proven to be resilient, she had no idea how to handle her the huge dominating werewolf that had staked his claim on her. Drake was past the point of feral when he'd found her, and that kind of darkness doesn't let go without a fight. The strongest of alpha females, raised with a full understanding of pack law and the power of the mate bond, would have had a tough time dealing with the wolf. Bethany, a dormant, who had no idea who or what she was, didn't stand a chance.

(Possible spoilers so read at your own peril). I fell into this series quite by accident. Basically grabbed the 1st in the series because it was free. I thought, what the heck. I'm not really into the werewolf/vampire genre, but had read the Sookie Stackhouse (True Blood) and Twilight Sagas (still not a fan of that writing, but I digress). For some reason I was looking for a werewolf story line and free was great. Well, let me tell you I was NOT expecting to be sucked into this world so completely! I fell in love, so much so that I ended up grabbing all of the series and waited anxiously for the latest entry - The Burning Claw. Quinn manages to paint a really well evolved supernatural world populated by really interesting characters. My typical read is along the sci-fi, multi book series - think Game of Thrones, etc. This was a lighter, but just as engrossing read. I was so heartbroken the Costin and Sally had to be separated yet again, and the things they both endured were just heart wrenching. I'm still moved. Little Titus is a revelation - he is just a little angel. Loving Zara and Wicham(sp?) developing story, also Bethany and Drake. So much yummy. I still find Jen to be grating...sorry, but I just speed read through her insane monologues. Love the core though and Luna and her mad scheme to unite all the sups. Like I said, I just thought I was getting a free read, little did I know that would come with a healthy obsession. I stayed up late and finished book 10 last night/early morning and I'm sure I will re-read the series as I have come to love that world, those characters and can hardly wait to see what happens next. As long as I get a relatively happy ending, I'm cool :)

As always Quinn has delivered a remarkable book. She quite often had me in fits of laughter and in tears as well. To be able to still write something new, inviting and that still engages the reader after 10 books is nothing short of amazing. Quinn has nailed this book like she has all her other books,

and i for one can't wait to read the next one.

This was an awesome book. I have to say I have been a fan of Quinn's for a long time. I enjoyed this book as much as the first three, which are my favorites. Sally is living in a different country, city, and state away from her pack mates with no knowledge of who she is, who they are, or what has happened to her since her memory has been altered. A lot of heart break happens in this book. You need lots of tissues. There were a lot of new characters to fall in love with. I love Titus, Zara, and Bethany. Quinn, it is about time poor old Wadim.... well I won't say anymore because that would be a spoiler and ruin the surprise. Let's just say I am happy about the history boy. Excuse me, for the ADD. It was like my mind just veered off track. When we left the last book Jacque and Fane were being kept alive with Peri's very life force. I can't say whether they made it or not, but they had a beautiful baby boy that is being cared for by his grandmothers in the first of this book. So like I said a lot of heart ache and pain. But this was an awesome book. I felt some of the emotions they felt. I laughed, cried, and was terrified of what would happen next. This book didn't feel rushed. It was well written, and I fell in love with the characters. Bethany is finally able to get some things settled with Drake. I highly recommend this book. It was amazing!!!!!! I would give it ten stars if I could. Thank you Quinn for your awesome books. It feels like you share a piece of your heart with me every single time I read something you write

I have been following this series since book 1 and I am ready for more. I am a Quinn Loftis fan for life. There were so many twists and turns that I don't know where to start. The book started on a somber note with Jacque and Fane on death's door, and gypsy healer Sally missing in action. We have two new dormants Bethany and Zara. And, poor Costin is hanging on by a thread hoping for news of Sally. His only solace is their son Titus. Cyn and Thalion are trying to round up more vampires for the slaughter, but they've all gone into hiding. I've got a few questions: When are Sally and Jaque gonna develop some impulse control and not rush in? They both have children now and need to be more cautious. Jacque rushed to help in the last book and went into labor in a den of vampires, she needs to slow down. When is Jen going to filter her mouth? Hopefully before her daughter starts talking. She is hilarious, though. Bethany finds her mate in Drake of the Serbia pack, who is still slightly feral. The couple is trying to figure out their relationship. Jacque and Fane wake to connect with their newborn. There is a new big bad wanting to cause trouble and they want Sally to take part in it, but they have no idea who they've pissed off by taking her. I still want to know how Skender got involve in all this, I thought he was one of the good guys? What happened to him? And

are the guys ever gonna be able to tell these girls to stay put and they actually listen? doubtful, very doubtful.

I cried and I laughed until I cried and I cried some more. Amazing series. I can't wait to continue to read more of the Grey Wolves. Jacque, Jen, Sally and Peri are so freaking hilariously awesome!!!! truly don't know how Dec, Fane, Costin and Vasilie handle those 4 and now you have 2 new she-wolves around. Can't wait for the next book Quinn. Please hurry with The Gypsy Healers book 4
