# Florida Through The Islands : What Boaters Need To Know

## Synopsis

Captain Clay Kelley & Marybeth have traveled the Florida waterways and the Bahamas for many years. During these travels they have met people new to cruising and others that have been cruising for years. One topic they all had in common was, the confused and varied information about traveling through Florida and the Bahamas. Clay and Marybeth realized the need for accurate and factual information directed toward cruisers plying these waters. This is not a cruising guide, but a guide to cruisers that explains, literally, hundreds of items every cruiser must know to cruise these waters without incident along the way. These problems can range from a mere inconvenience to the sinking or seizure of the vessel. Clay and Marybeth have written this book in a very easy to understand style that addresses the varied situations cruisers will find throughout their travels. Florida Through The Islands, is a book every cruiser going to Florida or the Bahamas should keep aboard and refer to often.

## Customer Reviews

This is where to start your Florida - Bahamas cruising library; even if you have already started your cruising. I say this for four (4 ) reasons:1. In less than 150 pages you will easily find critical safety and boating advice YOU NEED to go anywhere.2. The chart and cruising guide recommendations will save you bundles \$\$\$3. Almost every Florida - Bahamas cruiser has encountered several bad experiences that can be avoided if you have this book aboard...and read it.4. Captain Clay and Marybeth have been there. We know; we saw them many times.\*"History...Snakes...dinghy laws...56 feet!...Poison Wood...cash...too generous...provisions to return..." are only some of the

information we didn't have before we began our cruising time. Thankfully, none of the learning curve experiences resulted in pain or injury; except to our pocketbook and egos. This book costs about the same as three (3) gallons of diesel fuel at West End. You may be saving more than money...egos, injuries and maybe even lives. Buy this book; you'll like yourself more and a lot more importantly, so will your cruising friends.\*We "saw" these two while cruising aboard our catamaran SV Hibiscus in The Abacos. My wife and I had obtained 100 ton Masters to participate in The Boy Scouts of America's High Adventure program there. Over my left shoulder as I write this from my home in NE Florida, are photos of the The William H. Albury - the last Bahamian Schooner - her Captain and First Mate, . This was taken aboard the William H. and framed in a mast hoop commandeered from same, created and presented to us by Capt. Clay and Marybeth. Yep, we can speak with personal experience of this book and it's authors. Thanks Captain Clay and Marybeth!
