lots of stories about what he has done and people he knows lots of graphs of how many times he stuck and missed less than a quarter of the book is about technique I would not buy the book again

It's very Easy to follow!!!! the fact that it also has a dvd with the instructions really helped to fasten

things up.

It covers any and all weapons that you would want to throw I rate it a strong 4 stars for that reason. I have been able to throw my throwing knives and several other knives much better now. I'm not ready for any contest yet that is still a ways off.

this was WELL worth the money!! It showed me several different weapons and how to use them. This book and dvd will keep me busy for a while.

I would've given it 5 Stars if the DVD would've played all the way through. It played about halfway through then froze up and wouldn't play anymore. The book on the other hand has very amazing information and resources to help a person like me that is new to knife throwing. I would recommend this book to anyone, but would warn them not to expect much from the DVD.

The author covers important points on technique within the pages of this Book. It is a wonderful learning tool. Highly recommended.

great book a must have if this is your hobbie this book will enlighten you too many tips too mention this is a show all

This was a Christmas present. He loved it! Plus it shows how to throw them.
